

In response to numerous residents' questions about insects and disease affecting trees, shrubs and lawns in their home landscape, the Howell Shade Tree Commission along with our in house Certified Tree Experts: Zig Panek, Tom Clavin, and our new DPW Director Jeff Cramer, will produce timely bulletins describing the insect and disease problem and the possible remedy before it destroys plants and lawns in the landscape. As a Degreed Landscape Architect, County Park Manager, and turf specialist, Mr. Panek offers Residents his expertise and advise as a service to the Township. Residents are welcome to E-mail their horticultural questions to: Township website.

Cathy McKee Chairman Howell Shade Tree Commission
