GUIDELINES FOR PLAN REVIEW & INSPECTIONS FOR LAWN SPRINKLERS – PRESSURE VACUUM BREAKERS (PVB)

- ❑ The front of the UCC Construction Permit Application (manila folder) Sections I, II, III (optional), IV, and VII shall be filled out completely.
- ❑ The inside section of the UCC Construction Permit Application (manila folder) shall be signed by the homeowner or contractor, whoever will assume responsibility for the work being done.
- ❑ The small “white” UCC Construction Permit shall be filled out.
NOTE: The “Estimated Cost of Work” shall be the total of all subcode tech sections “est. cost of work” added together. (If applicable)
- ❑ All appropriate Subcode Tech Sections shall be completely filled out and signed by the homeowner or a licensed contractor (if applicable).

PLUMBING TECH SECTION – Signed by homeowner provided the homeowner will be doing the work himself, exclusively for his private residence **or** signed and sealed by a New Jersey Licensed Master Plumber.

ELECTRICAL TECH SECTION – If applicable

REQUIRED INSPECTIONS

- ❑ Plumbing Inspections: ***Final*** – When all plumbing work is completed.

Homeowner shall be home for this inspection due to the fact the inspector must check the main connection in the house.

- ❑ Electrical Inspection: ***Final*** – If applicable.
