

STAY SAFE DURING A COVID-19 HALLOWEEN

HAPPY HALLOWEEN

FOR MORE INFORMATION PLEASE VISIT THE CDC WEBSITE

STEPS TO TAKE WHEN TRICK-OR-TREATING

- * Children and parents should wear cloth face masks appropriate for COVID-19.
- * Masks should NOT be worn by children under the age of 2 or anyone who has trouble breathing.
- * Ensure face masks covers both nose and mouth. A costume mask is NOT a substitute for a cloth mask.
- * Only trick-or-treat with a small group of family members or close friends who you typically spend time with. Stay in your own neighborhood and do NOT go to multiple areas.
- * Maintain social distance of at least six feet from other groups. Wait for other groups to leave before you go up to a house.
- * Bring hand sanitizer (at least 60% alcohol) with you and use it between houses and after touching objects or other people.

MAKE TRICK-OR-TREATING SAFER

- * Designate one adult per household to hand out candy or treats and avoid direct contact with trick-or-treaters.
- * Wear cloth face masks appropriate for COVID-19.
- * Put candy or treats in individual baggies and lay them out for children instead of putting in a large bowl for visitors to grab themselves.
- * Set up a station and give out treats outdoors, if possible. Disinfect doorbells, doorknobs or other high-touch surfaces outside your home, if not possible.
- * Turn off house lights and post a sign if you are not participating this year.
- * Wash hands with soap and water for at least 20 seconds when you get home and before you handle or eat any treats.

Do NOT participate if you or your child feels sick, has symptoms of COVID-19 or is at high risk of complication or if you or a family member are under current isolation or quarantine restrictions from the health department.
