STIGMA

The **Monmouth County Stigma-Free Initiative** is a county-wide program that aims to reduce the stigmas associated with mental illness and substance use disorder. We are dedicated to raising awareness of the diseases of mental illness and substance use disorders to create a culture wherein residents feel supported by their community and neighbors and feel free to seek treatment for the diseases without fear of stigma.

For more information contact us on our website:
<https://www.stigmfree-monmouth.org/>

NJ Governor's Council on Mental Health Stigma
www.nj.gov/mhstigmacouncil

The campaign to educate and enlighten the public about the importance of mental health is paramount to our efforts. Mental health stigma is the last frontier of discrimination and we are in the midst of an evolution and revolution in mental health. We now know that it is likely that everyone will experience or be touched by a mental illness at least once in their lives.

Therefore, we must remember that mental illness does not discriminate, people do.

When we discriminate against those with mental illness we are discriminating against our mothers and fathers, sons and daughters, sisters and brothers, friends and neighbors. Embracing mental health and learning more about mental illness will enrich and strengthen the communities in which we live.
