**4567 ROUTE 9**

**HOWELL, NEW JERSEY 07731**

**(732) 938-4500**

### **\*\*15 MARL ROAD UPDATE\*\***

This is the latest update as of April 17, 2023, regarding the Compounder's Inc Site.

- Work has begun on-site by EPA Officials which include sampling and identifying potential hazardous.
- The laboratory products that were removed from the structure by the owner of the property have been placed back into the warehouse for testing and safe guarding.
- Air Monitors have been placed at two locations outside of the property to continuously monitor air quality.
- The drums are being sorted and arranged on the property, so better identification can be done on those drums. Plastic has been placed in any areas where there are leaking drums.

Since work has started on the property and hazards are being removed and stabilized, the danger of a fire or evacuation have been reduced, but not eliminated.

The Township will keep providing information as we receive it. Thanks for your patience.
