

HOWELL TOWNSHIP OFFICE OF EMERGENCY MANAGEMENT

The Air quality for Howell Township/Farmingdale Borough for June 7, 2023 is currently at 177

The New Jersey Department of Environmental Protection has issued a code orange air quality alert Thursday for Monmouth County.

A code orange air quality alert means that air pollution concentrations within the region may become unhealthy for

sensitive groups. Sensitive groups include children...people suffering from asthma... heart disease or other lung

diseases...and the elderly. The effects of air pollution can be minimized by avoiding strenuous activity or exercise outdoors.

| Daily AQI Color | Levels of Concern | Values of Index | Description of Air Quality |
|-----------------|--------------------------------|-----------------|---|
| Green | Good | 0 to 50 | Air quality is satisfactory, and air pollution poses little or no risk. |
| Yellow | Moderate | 51 to 100 | Air quality is acceptable. However, there may be a risk for some people, particularly those who are unusually sensitive to air pollution. |
| Orange | Unhealthy for Sensitive Groups | 101 to 150 | Members of sensitive groups may experience health effects. The general public is less likely to be affected. |
| Red | Unhealthy | 151 to 200 | Some members of the general public may experience health effects; members of sensitive groups may experience more serious health effects. |
| Purple | Very Unhealthy | 201 to 300 | Health alert: The risk of health effects is increased for everyone. |
| Maroon | Hazardous | 301 and higher | Health warning of emergency conditions: everyone is more likely to be affected. |
